## Top-tier Accountants For Your Business

Quality services from top notch  
Accounting Professionals

# About Us

**Enlaiven is a group of professional accountants.**

Enlaiven is a group of professional accountants providing bookkeeping, accounting and financial advisory services to small and mid-sized business enterprises, restaurant owners and to the CPA firms based in USA. We help our clients in making informed business decisions by providing them with accurate financial data on time and thereby helping them to scale up their business.

Enlaiven is backed by founders, Mr. Jaydeep Vaghela and Mr. Sahil Shah, having experience of more than a decade in outsourcing Industry. Both the founders of Enlaiven are qualified Chartered Accountants from India having experience of leading US outsourcing operations with a team size of 200+ employees. On top of that, Enlaiven is backed by qualified and experienced accountants having in depth knowledge of end-to-end accounting and reporting requirements. Anyone who joins Enlaiven family as a professional accountant, we make sure that our value system is aligned. We do not focus only on technical skills, but we insist on core value system of an individual that one carries throughout lifetime.

Enlaiven is an idea that emerged during global pandemic of Covid 19. Even businesses that were very conservative and did not believe in remote work environment, have successfully started adopting to this new work environment and have started gaining benefits out of it. We started this venture with an aim to extend these benefits to all our clients.

## Our Vision

Our vision is to help our clients to focus on their businesses, allowing them to scale up. By providing a wide range of services, we give you the freedom to nurture your values, focus on your goals, and plan a vision for the future of your business.

## Our Mission

To provide tailored, end-to-end accounting, bookkeeping, and compliance services. We aim to provide accurate financial data that helps you to make informed business decisions, thereby helping you to achieve your business goals.

# Our Values

## Collective Growth

We believe in collective growth of every stakeholder of Enlaiven, may it be our clients, our employees, or the partners. We strongly believe, success carries values and is long lasting only when it is achieved together and when benefits are shared with everyone.

## Work Ethics

Enlaiven came into existence keeping work ethics in centre. While providing services to our clients, we make sure we achieve our goals without compromising with our work ethics. Our clients should not feel at any point in time that they are not getting services worth what they have been paying for.

## Integrity

Integrity is one of the core value system of Enlaiven and we insist on it a lot before anyone becomes part of Enlaiven family. When we hire anyone at Enlaiven, we may compromise on technical skills because that is something which can be taken care of by training. However, we do not compromise on Integrity as that is something which is accumulated over a period in any Individual backed by strong upbringing.

Team of Top-Notch Accounting Professionals

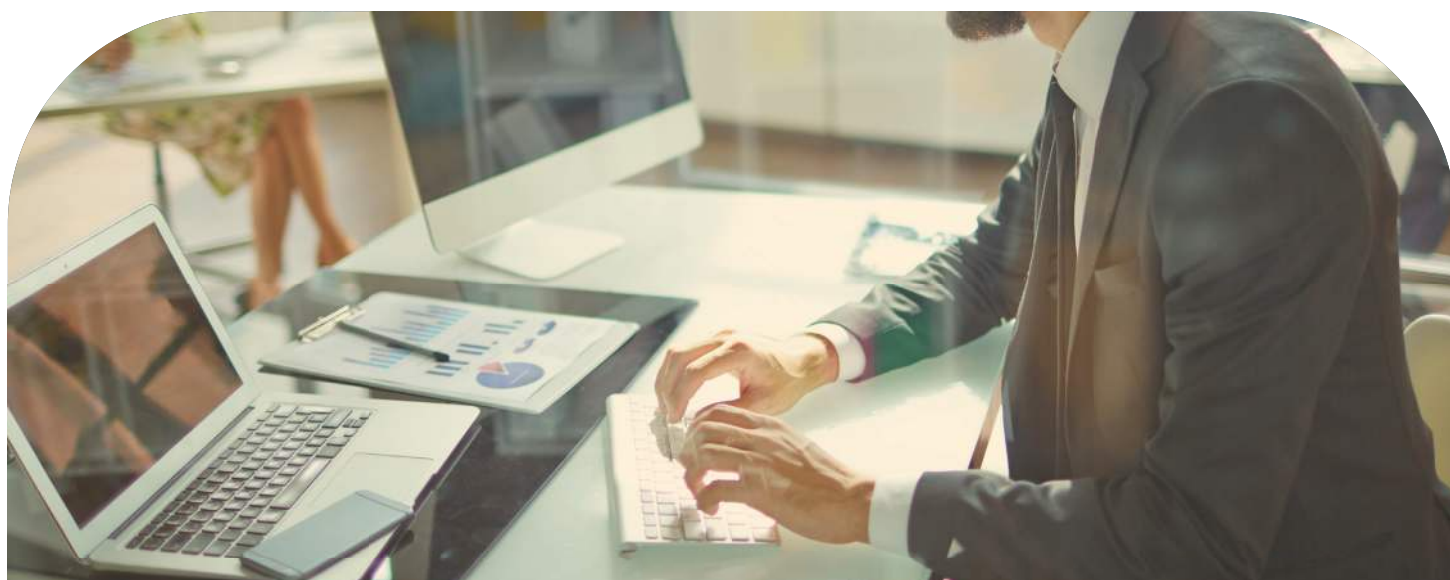

# Engagement Model

**We have different pricing options to suit your requirements.**

We offer three different engagement models viz, Fixed fees, Hourly Fees and FTE. You can choose the one which suits your project requirements and which you feel would be the most cost effective for you. Have a look at the below table for more details.

	Fixed Fees	Hourly Fees (\$20/hour)	FTE (\$2,200/FTE)
<b>How it works?</b>	Fixed monthly fees is charged at the beginning of each month. Fixed fees is agreed upon based on number of factors like size of the business, number of transactions, reporting requirements etc.	We keep track of hours spent while working on your project and the same is billed at the end of each month.	We provide you full time employee which is fully dedicated to your project and we charge you per employee at the beginning of each month.
<b>When it works best?</b>	This model works best when you have monthly recurring tasks and set processes.	This model works best in case of one off projects and in case of recurring projects when number of tasks for each month are variable.	This model works best in case of organizations having huge volume. Also, works best in case of Accounting practitioners dealing with multiple clients.

# Software we use

## Accounting Software

## POS Software

## Payroll Software

## Accounts Payable / Inventory Management
